

Your Professional Partner in Event Solutions

Elevate your next event with Expo AV Pte Ltd, a leading AVL production company providing state-of-the-art audio, video, and lighting solutions.

Our partners

# EXPO AV

## The Company

Expo AV Pte Ltd (EAV) is a leading audio, video, and lighting company offering advanced AVL technology and comprehensive services, including equipment rentals, production management, and installations. Specialising in corporate events and conferences, EAV enhances audience experiences with creative solutions like 3D mapping and development of AR / VR content through their in-house agency, DK Studios. Since 2006, they have served diverse clients and have been the Technical Production Partner for Singapore Expo's Apex Plenary Hall since 2019. From 2025, EAV is appointed as the Official Technical Production Partner for D' Marquee, located at Downtown East, Singapore.

# DIGITAL KITCHEN STUDIOS

## Our Partner - Creative Content Production

**Digital Kitchen Studios Pte Ltd (DKS)**, a division of **Expo AV Pte Ltd**, is a dynamic creative agency at the forefront of innovative event and experiential marketing. Since pioneering 3D video mapping projections in 2010, DKS has been delivering immersive, transformative experiences that elevate audience engagement and redefine brand storytelling.

With a reputation for producing highly engaging content, DKS offers end-to-end solutions that seamlessly integrate strategic planning with production excellence. Its capabilities span motion graphics and animation, video production, interactive programming, and creative engagement and activation strategies.

Guided by Founder and Managing Director **Gerard Rodrigues**, the studio is powered by a passionate team of creative leaders and multimedia specialists. Their expertise encompasses projection mapping, content development, and the production of both live and virtual events, ensuring every project is executed with precision and impact.

# THE PRODUCTION INITIATIVE

## Our Partner - Broadcast Solutions

The Production Initiative Pte Ltd (TPI), leverages advanced technology to enhance event accessibility and enjoyment. Specializing in broadcast solutions, TPI empowers corporate clients with seamless, secure virtual experiences supported by a robust cloud-based infrastructure.

Focused on user-friendly service, TPI ensures clients of all technical backgrounds can effectively utilize their solutions. An experienced team provides expert guidance and support to maximize event impact.

Renowned for high-quality, innovative solutions, TPI serves businesses of all sizes, creating engaging, interactive experiences with superior audio and video quality and seamless connectivity.

# WHY US?

## Expo AV Pte Ltd for Your Event Production Needs

Expo AV Pte Ltd stands as a trusted leader in the events production industry, with over 18 years of expertise providing innovative AV solutions for Singapore's MICE industry. Our skilled professionals specialise in tailored solutions, designing and implementing customised AV setups that align perfectly with your event objectives.

We offer the latest, most reliable hardware and software to ensure seamless execution and top-tier performance. Partnering with reputable venue partners, we streamline logistics and provide versatile spaces, simplifying planning and ensuring effortless event execution.

Committed to client satisfaction, our project and technical teams are always ready to troubleshoot, assist, and ensure flawless events. We provide competitive pricing without compromising quality, delivering the best value for your investment.

Focusing on long-term partnerships, we adapt and enhance your AV solutions as your events grow and evolve. With Expo AV Pte Ltd, you gain a reliable partner dedicated to your success.

# OUR CORE VALUES

## People and Relationships at the Core

At Expo AV Pte Ltd, we are committed to building strong, lasting relationships with our clients, vendors, and employees. Our business is center around understanding the unique needs of each partner, enabling us to provide personalised solutions that inspire trust and collaboration.

We believe that meaningful connections are the key to long-term success. Whether it's through open communication with clients, nurturing vendor partnerships, or supporting our team, we prioritise mutual respect and shared goals. This people-first approach allows us to deliver exceptional service while fostering a culture of care within our company.

At our core, we understand that strong relationships drive business growth. By focusing on people, we remain dedicated to creating value and lasting partnerships that stand the test of time.

# OUR DISTINCT ADVANTAGE

With over 18 years of expertise in Singapore's MICE industry, we are a one-stop, 360° solution provider for all your event needs. Our comprehensive offerings range from advanced AV and lighting solutions to creative content production, multicam setups, broadcast services, and platforms for both onsite and online audiences—all supported by expert technicians for seamless execution.

Dedicated to client satisfaction, we provide round-the-clock support and cost-effective solutions without compromising quality. As your long-term partner, we continually adapt to your evolving needs, ensuring exceptional value and scalable support for your event's growth.

## 01.

    - **K2:** Private dining room for bespoke VVIP meals.
    - **one77°:** Bistro café showcasing fusion Singaporean cuisine.

# OUR VENUE PARTNERS

## D'Marquee Downtown East

Since 2003, D'Marquee has been a key venue for Membership, Union, and Community Engagement (MUCE) events, hosting memorable experiences for 20 years. Its redevelopment aligns with Singapore's growing MICE industry, supporting the nation's vision to be the World's Best MICE City.

The new D'Marquee features a unique shipping container-inspired design with solar panels for energy efficiency and an acoustically treated interior for versatile use. With 40% more floor space, upgraded amenities, and flexible configurations, it accommodates large-scale events like concerts, product launches, and consumer shows.

From **1 January 2025**, Expo AV will proudly serve as the official technical partner for D'Marquee, ensuring seamless technical production for all events. Partnering with Expo AV, D'Marquee offers advanced AVL technology at accessible rates while meeting Green Mark sustainability standards, positioning it as a premier, eco-friendly event space for diverse audiences.

Download the deck [here](#).

### • Venue Overview:

- Location: Downtown East, Pasir Ris, near Changi Airport.
- Size: 2,400 sqm, pillar-less, fully air-conditioned, and acoustically treated.
- Capacity: Seats up to **2,200 guests** in a theatre-style arrangement.
- Purpose: Designed for concerts, exhibitions, corporate events, product launches, weddings, and festivals.

### • Strategic Timing & Benefits:

- Post-pandemic shift to **venue management** ensures sustainable business and regular commitments.
- Supports the East Singapore community and benefits event organisers.

### • Expo AV's Role:

- Official Technical Partner from **1 January 2025**.
- Secured partnership through an **animated film** showcasing track records and a people-centric approach.
- Proven expertise: Official technical partner for **Singapore Air Show** since 2010.

### • Location Advantages:

- Proximity to MRT stations, **Changi Airport**, shopping mall, and **40+ F&B outlets**.
- Adjacent to **D'Resort** with hotel and resort facilities.

### • Technical Highlights:

  - Partnership with **Proel Group's Axiom loudspeakers**.
  - Setup includes:
    - 4 L-R arrays with **Proel Axiom cabinets**.
    - **12 subwoofers** for premium audio coverage.

# EVENT AV & MULTICAM PRODUCTION

Event AV and Multicam Production are integral to the success of live events, broadcasts, and productions, working seamlessly to elevate the audience experience. Event AV focuses on designing and delivering exceptional audio and visual elements, while Multicam Production utilises multiple cameras and real-time editing to capture events from dynamic perspectives. Together, they create immersive and unforgettable productions that truly bring events to life.

To achieve this, we leverage a comprehensive suite of Blackmagic Design video technology, specialising in cutting-edge broadcast camera solutions. Our equipment inventory features an extensive range of 4K production cameras, complemented by a diverse selection of high-performance lenses, including an assortment of box and prime lenses, to meet the most demanding production standards.

# PRODUCTION STUDIO

Green screen technology has revolutionised modern filmmaking and video production, providing filmmakers and content creators with innovative, cost-effective solutions for executing complex scenes and settings. Our production studio is a purpose-built facility designed to cater to a wide range of media production needs, equipped with advanced tools and state-of-the-art resources to ensure high-quality results.

The studio features a spacious **studio floor** measuring **10m (L) x 7m (D) x 3.5m (H)**, fitted with **4K broadcast cameras** and a **soundproof environment** for seamless production. The **Production Control Room (PCR)** is fully equipped with cutting-edge technology, including **Unreal Engine integration**, **camera tracking facilities**, and a robust **3 ISP system** with failover and load balancing, offering a total throughput of **5GB/s**.

For convenience and comfort, the **lounge area** provides a versatile space with a **viewing area, working stations, make-up and changing facilities**, as well as a **stocked pantry** with a fridge and water dispenser. This comprehensive setup ensures a professional and efficient environment for content creation across various formats.

# TRANSFORMING VISION INTO REALITY

## Virtual Set Building:

The virtual set will be built using Unreal Engine based on the requirements given. This virtual set will replace the green screen background in the final output.

## Keying & Subject Replacement

The actors or objects are placed in front of the green screen and a software removes the green background and replaces it with the desired background. The keyed subject is then composited onto the chosen background plate, creating the final composite image.

## Real-time Playback:

The composited video is then played back in real-time, which allows actors and directors to see the final result while recording. This helps with framing and timing to ensure a seamless integration between the subject and the background.

## Final Output:

The final output can be recorded or broadcasted live, depending on the production's requirements. This may involve further post-production work to refine the compositing or add additional effects.

# PORTFOLIO OF OUR SUCCESS STORIES

## Examples of AVL Work and Achievements

The following are collection of project case studies that highlights strategic approaches, measurable outcomes, and the tangible value delivered to clients. Each example offers insight into the methods and solutions that drive successful results.

HSBC LIFE’S FLYING START 2025 @ D’MARQUEE

Expo AV, in partnership with NTUC Club and Downtown East’s D’Marquee, brought HSBC Life’s “Flying Start 2025” to life with professional AVL solutions. High-resolution LED walls, seamless live streaming, crystal-clear audio, and dynamic lighting transformed D’Marquee into an engaging and immersive event space. This seamless collaboration showcased how innovation and expertise can elevate events, leaving a lasting impact and setting a benchmark for excellence.

HSBC FLYING START 2025

Expo AV, in partnership with NTUC Club and Downtown East’s D’Marquee, delivered an extraordinary experience for HSBC Life’s “Flying Start 2025.” Leveraging professional AVL (Audio, Visual, and Lighting) solutions, the event transformed D’Marquee into a vibrant and engaging space reflecting HSBC Life’s dynamic vision for the future.

High-resolution LED walls showcased stunning visuals and live feeds, ensuring every attendee enjoyed an immersive and clear view of the program. Seamless live streaming and multi-camera setups provided dynamic perspectives, while a state-of-the-art sound system ensured crisp, balanced audio for speeches, discussions, and performances. Intelligent lighting design added depth and atmosphere, with effects enhancing key moments.

This event highlighted the strength of collaboration between Expo AV and D’Marquee, combining technical expertise with a versatile venue to deliver a polished, impactful production. Together, we set a new benchmark for excellence in event execution, leaving a lasting impression on attendees.
